NIS CHAPTER IX MEMO NO. 4

DATE 27 April 1959

MEMORANDUM FOR: NIS Chapter IX Contributors

SUBJECT: Definition of "Obtainable in quantity"

1. For Chapter IX and Section 19 purposes, maps or charts stated to be "obtainable in quantity" must be in one of two categories, as follows:

a. Maps or charts in stock ready for distribution.

b. Maps or charts for which reproduction materials (separation plates, etc.) are on hand.

2. The 1b category above is not to be interpreted as including single copies of monochrome maps or charts, which could be reproduced by photostat, ozalid, or other methods.

3. A definition of "obtainable in quantity" as used in Chapters IX and Sections 19 will be published in the glossary portion of the Guide to Users for all future Chapters IX, including those now at the coordination stage.

28 APR 1959
